

## **Celebrating 10 years of Excellence**

ADC is thrilled to be celebrating our 10th summer!!! At Artistic Dance Concepts we are passionate about dance and about teaching children and igniting a fire for the art in each and every student. Whether a child wants to just take class for fun— or be challenged beyond measure: ADC has what it takes to make you fall in love. We work hard at ADC, but because we LOVE dance— we never realize it! When you love dance as much as we do— you crave it— you want it— you need it! Come experience for yourself what real passion is all about and enjoy letting go and just DANCING!

**Bonnie Hotman-Pehl** was born to dance! With over 29 years of training herself, Bonnie continues the lifelong pursuit of dancing. Bonnie continues to push herself as a person, dancer, choreographer, and artist. Recently she has just began her own professional company, THE Collective. Bonnie teaches her students that they can always reach a little higher than before, and puts her own words of advice to work in her life as well. Bonnie has led her students to winning results. Choreography awards, scholarships, Best of Show, Judges Choice Awards, and High Cash awards are just a few of the works Bonnie has produced making her one of the most sought after choreographer around. With a passion for dance that she was born with and over 29 years experience, Bonnie strives to instill not only proper technique, and a dance education that will take her dancers anywhere they choose, but also a sense of self-respect, confidence, team work, and respect for fellow dancers, to every student. *You've got to dance like EVERYONE's watching!*
